Cobb County Data Distribution Policy:

Cobb County Digital Base Map Data, Tax Assessor GIS Parcel data, and all other for-purchase data sets noted above, will be licensed for a fee for each of the above geographies. The same pricing structure is used for all customers whether private companies or public organizations (ex: universities, counties, etc...).

For companies or organizations that have a contract or an agreement to do work for Cobb County then the county will provide that company or organization the GIS data files for the required project area, for no fee.

- Request for data must come from the county department, authorizing the company or organization agreement to complete work for Cobb County.
- The company or organization will be provided a limited use license for the data for the duration of the contract or agreement.
- A copy of the contract or agreement must be provided to the Cobb County GIS Office to receive the base map data.

The county provides its "Basic Data Set" at no charge. It is available for download from the Cobb County GIS webpage or by request.

All licensing fees collected for the Cobb County Digital Base Map and GIS Parcel data should be returned to the GIS program for use in maintaining, developing, distributing the GIS digital data and maintenance of the county Enterprise GIS system.

All GIS base map and GIS parcel data licensing, distribution, and fee collection will be administered by Information Services.

You are hereby notified that Cobb County GIS data and digital imagery are protected by United States copyright laws and international treaty provisions.
